

Summon@DU
Chris Brown – cbrown@du.edu

Access Summon@DU from the library web site: library.du.edu

With over 700 databases, finding what you really need is challenging and time consuming. Summon contains nearly 400,000,000 entries including:

- Books in our library catalog
- E-books we own
- Peer-reviewed journal articles
- Popular journal articles
- Dissertations
- Book Reviews
- Technical Reports
- Trade Publications
- Research Guides
- Magazine articles
- Newspaper articles
- Movies (DVDs, VHSs)
- Maps
- Much more

Strategy to use with Summon: Search first, limit later

Mouse-over title gives you abstract

Click on title takes you to full-text

Limit by:

- Scholarly publications
- Content Type
- Subject Terms
- Publication Date
- Library Locations (for items from the online catalog)
- Language

Link out to Full Text – Clicking on a Summon title will link you out to full text, or tell you where to get the material. If a full text link fails, use the link at the top of the page that says: “If your item does not appear below, click here for Article Linker sources.”

Export and E-mail Records – Summon works well with RefWorks and EndNote.
